

Sistema SciELO de Publicação Eletrônica - OJS

Sistema SciELO de Publicação Eletrônica

- **Nova metodologia de publicação na SciELO baseado no sistema "Open Journal Systems" - Open Source – <http://pkp.sfu.ca/ojs/>**
- **Sistema Web (descentralização)**
- **Acesso via usuário e senha**
- **Vários perfis de usuário: administrador, gestor da revista, editor, autor, revisor, etc**
- **Gerenciamento dos dados da revista, dos fascículos e artigos**
- **Template para geração do XML do PubMed Central**
- **Publicação online de números pre-print.**

Metodologia atual x Metodologia nova

Sistema SciELO de Publicação Eletrônica

Nova metodologia de publicação SciELO - OJS

- **Menor custo**
- **Maior agilidade editorial**
- **Publicação imediata**

Sistema SciELO de Publicação Eletrônica - OJS

SciELO agregou ao OJS v.2.0.2

- **Marcação**
 - Template Word
 - Geração de XML seguindo a DTD PubMed Central
 - Geração de html e Pdf a partir do XML
- **Agendamento da Publicação no SciELO**

Principais Tipo de usuários e tarefas

- **Perfil Administrador - SciELO**

Cria as revistas e os usuários “Journal Manager” para cada uma das Revistas SciELO

Principais Tipo de usuários e tarefas

- **Administrador da Revista**
 - **Preenche dados sobre a revista**
 - **Cria os usuários da revista:**
 - **Editores**
 - **Autores**
 - **Revisores**
 - **Responsáveis pela marcação**

[Home](#) > [User](#) > [Journal Management](#) > **Journal Setup**

Journal Setup

Steps to a Journal Web Site

1. [Details](#)

Name of journal, ISSN, contacts, sponsors, and search engines.

2. [Policies](#)

Políticas - incluindo peer review

Focus, peer review, sections, privacy, access, security, and additional about items.

3. [Submissions](#)

Instruções aos autores

Author guidelines, copyright, and indexing (including registration).

4. [Management](#)

Gerenciamento do Fluxo

Scheduling, subscriptions, and use of copyeditors, layout editors and proofreaders.

5. [The Look](#)

Aparência da Revista

Homepage header, content, journal header, footer, navigation bar, and style sheet.

6. [Extra info](#)

Dados obrigatórios para SciELO

Extra info for SciELO

Home > User > Journal Management > **Journal Setup**

Step 2. Journal Policies Políticas de peer review

1. DETAILS 2. **POLICIES** 3. SUBMISSIONS 4. MANAGEMENT 5. THE LOOK 6. EXTRA INFO

2.1 Focus and Scope of Journal

Enter a statement below, which will appear in About the Journal, that speaks to authors, readers, and librarians about the range of articles and other items which the journal will publish.

Nossos artigos são de caráter de testes, são escolhidos ao acaso entre os da coleção SciELO, usando como critério obter uma amostra heterogênea para testar imagens, tabelas, referências bibliográficas, entre outros elementos.

If using HTML in Setup text boxes (for font size, bold, color, etc.), note that "returns" in the text are automatically treated as
.

2.2 Peer Review

Outline the journal's peer review policy and processes for readers and authors, including the number of reviewers typically used in reviewing a submission, the criteria by which reviewers are asked to judge submissions, typical time taken to conduct the reviews, and the principles for recruiting reviewers. This will appear in About the Journal.

Review Policy

[ESCOLHIDO AO ACASO ENTRE AS REVISTAS DA SCIELO]
This journal publishes original research papers, serving as a forum for disseminating innovative research in all aspects of computer science.

Contributions will be considered for publication in JBCS if they have not been published previously and are not under consideration for publication elsewhere (except in the form of an abstract or thesis, or that have appeared in conference proceedings but have been substantially revised).

Review Guidelines

The Review Guidelines provide reviewers with criteria for judging a submission's suitability for publication in the journal, as well as any special instructions for preparing an effective and helpful review.

Acceptance of papers for publication is subject to a peer review procedure and is conditional on revisions being made given comments from referees. Details of format for final submission will be provided for accepted papers. Even though an electronic format of the final version will be required, authors must provide hard-copy versions for refereeing.

Review Process

OJS supports two models for managing the review process. The Standard Review Process is recommended because it steps reviewers through the process, ensures a complete review history for each submission, and takes advantage of automatic reminder notification, and standard recommendations for submissions (Accept; Accept with revisions; Submit for review; Submit elsewhere; Decline; See comments).

Select one of the following:

☐ **Standard Review Process**

Editors will email selected Reviewers the title and abstract of the submission, as well as an invitation to log into the journal web site to complete the review. Reviewers enter the journal web site to agree to do the review, to download submissions, submit their comments, and select a recommendation.

☒ **Email-Attachment Review Process**

When the Section Editor sends Reviewers a request to review, it will include the submission as an attachment. If Reviewers are willing, they will first email their assent, and later email their review and recommendation to the Editor. The Editors will then copy the review under the Reviewer's name on the Review page and enter the Reviewer's recommendation for the submission, ensuring that the system has a record for review process.

Review Options

Review Time

The typical period of time allowed for reviews: weeks

Note: Can be modified during the editorial process.

Reviewer Ratings

- ☒ Editors will rate reviewers on a five-point quality scale after each review.

Reviewer Access

- ☒ Reviewers will have access to the submission file only after agreeing to review it.

Review Questions

Languages ← Configurando idiomas

OJS can be made available to users in any of several supported languages. As well, OJS can operate as a partially multilingual system, providing users with an ability to toggle between languages on each page, and allowing certain data to be entered in up to two additional languages.

If a language supported by OJS is not listed below, ask your site administrator to install the language from the site administration interface. For instructions on adding support for new languages, please consult the OJS documentation.

Primary locale * English

This will be the default language for the journal site.

Supported locales
☒ English
☒ Espanol
☒ Portugues

Select all locales to support on the site via a language select menu to appear on each page. The menu will only appear if more than one locale is selected.

Alternate Locale #1 Espanol

Alternate Locale #2 Portugues

This system optionally allows certain critical information to be entered in up to two additional languages. To use this feature, select one or two alternate locales and choose from the options listed below.

Language options
☒ Title image, page header, etc. will be uploaded in each of the journal's languages.
☒ Authors should be asked to provide titles and abstracts in the other language(s), with the option of having done by journal staff.

INFORMATION

Step 1. Starting the Submission

1. **START** 2. ENTER METADATA 3. UPLOAD SUBMISSION 4. UPLOAD SUPPLEMENTARY FILES 5. CONFIRMATION

Authors submit items to this journal through this web site in a five-step process for uploading the manuscript and relevant information (with an option to upload, as well, supplementary files, such as research data and instruments). If difficulties are encountered in this process, contact [Desenvolvedores](#) by email or phone for assistance.

Submission Checklist Dados configurados pela revista

Authors must indicate with a checkmark that their submission meets each of the following requirements before proceeding to Step 2 in the submission process.

- ☒ The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- ☒ The submission file is in Microsoft Word, RTF, or WordPerfect document file format.
- ☒ All URL addresses in the text (e.g., <http://pkp.sfu.ca>) are activated and ready to click.
- ☒ The text is single-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- ☒ The text adheres to the stylistic and bibliographic requirements outlined in the [Author Guidelines](#), which is found in About the Journal.
- ☒ The text, if submitted to a peer-reviewed section (e.g., Articles), has had the authors' names removed. If an author is cited, "Author" and year are used in the bibliography and footnotes, instead of author's name, paper title, etc. The author's name has also been removed from the document's Properties, which in Microsoft Word is found in the File menu.

Step 2. Entering the Submission's Metadata **Entrada de metadados**

1. **START** 2. **ENTER METADATA** 3. [UPLOAD SUBMISSION](#) 4. [UPLOAD SUPPLEMENTARY FILES](#) 5. [CONFIRMATION](#)

This journal gathers metadata about each submission, according to the standards set by the Open Archives Initiative, which is the emerging online standard for identifying research resources. This enables collective and accurate searching across OAI databases, increasing the likelihood that readers will find submissions such as this one. Editors may insist that metadata be provided before initiating the editorial process.

Journal's Privacy Statement

The names and email addresses entered in this journal site will be used exclusively for the stated purposes of this journal and will not be made available for any other purpose or to any other party.

Authors

For submissions with more than one author, order authors as they are to appear on citation.

Title *	The evolution of the aerodynamic design tools and transport aircraft
Title (Espanol)	
Title (Portugues)	
Abstract	<p>This paper provides a historical summary of the aerodynamic design of transport aircraft wings during the past 35 years at Empresa Brasileira de Aeronáutica (EMBRAER) and describes, from the application standpoint, the evolution of the theoretical and experimental techniques and tools used. </p> <p>Beginning with the EMB110 Bandeirante and proceeding with the EMB121 Xingu, the EMB120 Brasília, CBA123 Vector, ERJ145 family and now with the EMBRAER 170 family, there has been a progressive shift from empirical and simplified analytical design techniques to CFD methods of ever increasing capabilities. In the experimental field, more advanced windtunnel test facilities and techniques have also been progressively employed to match the increased complexity of the computational methods.</p>
Abstract (Espanol)	
Abstract (Portugues)

Step 3. Uploading the Submission **Carga do arquivo**

1. START 2. ENTER METADATA 3. **UPLOAD SUBMISSION** 4. UPLOAD SUPPLEMENTARY FILES 5. CONFIRMATION

To upload a manuscript to this journal, complete the following steps.

1. On this page, click Browse (or Choose File) which opens a Choose File window for locating the file on the hard drive of your computer.
2. Locate the file you wish to submit and highlight it.
3. Click Open on the Choose File window, which places the name of the file on this page.
4. Click Upload on this page, which uploads the file from the computer to the journal's web site and renames it following the journal's conventions.
5. Once the submission is uploaded, click Save and Continue at the bottom of this page.

The file can be viewed by clicking on the file name. A new or revised file can be uploaded, deleting the one that currently appears. If you have difficulties uploading the submission, contact [Desenvolvedores](#) by email or phone for assistance.

Submission File

File name	60-214-2-SM.doc
Original file name	The evolution of the aerodynamic design tools and transport aircraft wings at Embraer.doc
File size	945KB
Date uploaded	2005-09-15 06:14 PM

Replace submission file

Step 4. Uploading Supplementary Files Carga de arquivos suplementares

1. START 2. ENTER METADATA 3. UPLOAD SUBMISSION 4. **UPLOAD SUPPLEMENTARY FILES** 5. CONFIRMATION

This is an optional step in the submission process. Supplementary Files operate like an appendix to the submission, intended to improve the contribution which the submission makes. Supplementary Files might include (a) research instruments, (b) data sets, which comply with the terms of the study's research ethics review, (c) sources that otherwise would be unavailable to readers, or (d) figures or tables that cannot be integrated into the text itself. These files are also indexed by the author, identifying their relation to the submission, as well as their ownership. Supplementary Files can be uploaded in any file format and will be made available to readers in their original format.

#60 Review

Submission To Be Reviewed **Artigo em revisao**

Title	The evolution of the aerodynamic design tools and transport aircraft wings at Embraer
Journal Section	Seção Técnica
Abstract	This paper provides a historical summary of the aerodynamic design of transport aircraft wings during the past 35 years at Empresa Brasileira de Aeronáutica (EMBRAER) and describes, from the application standpoint, the evolution of the theoretical and experimental techniques and tools used. Beginning with the EMB110 Bandeirante and proceeding with the EMB121 Xingu, the EMB120 Brasília, CBA123 Vector, ERJ145 family and now with the EMBRAER 170 family, there has been a progressive shift from empirical and simplified analytical design techniques to CFD methods of ever increasing capabilities. In the experimental field, more advanced windtunnel test facilities and techniques have also been progressively employed to match the increased complexity of the computational methods.

Reviewer Guidelines

Acceptance of papers for publication is subject to a peer review procedure and is conditional on revisions being made given comments from referees. Details of format for final submission will be provided for accepted papers. Even though an electronic format of the final version will be required, authors must provide hard-copy versions for refereeing.

ORIGINAL ARTICLE

Quality of life before and after pulmonary thromboendarterectomy: Preliminary results

Pedro Rodrigues Genta;
Fábio Biscegli Jatene^{TE SBCT};
Mário Terra-Filho

[Correspondence](#)

ABSTRACT

BACKGROUND: Pulmonary hypertension secondary to chronic thromboembolism is a severe and debilitating disease and has been associated with high mortality. Pulmonary thromboendarterectomy is the treatment of choice.

OBJECTIVE: To evaluate the impact of pulmonary thromboendarterectomy on the quality of life of patients with pulmonary hypertension secondary to chronic thromboembolism using the SF-36 Health Survey.

METHOD: The SF-36 Health Survey questionnaire was administered to 13 patients prior to and at least 3 months following thromboendarterectomy.

RESULTS: Of the 13 patients studied, 7 were female and 6 were male. Mean age was 45.7 ± 18.3. All were submitted to thromboendarterectomy. After surgery, all SF-36 domains, with the exception of the "mental health" domain, improved.

CONCLUSION: Pulmonary thromboendarterectomy provides significant improvement in patient quality of life.

Key words: Hypertension pulmonary. Pulmonary embolism. Endarterectomy/methods. Quality of life.

The right-hand pane shows the "Styles and Formatting" task pane, displaying a list of styles including "Normal (Web)", "ALL-FORM-tex-math", "ALL-scientific-name", "BODY", "BODY-picture-label", "BODY-picture-link", "BODY-pictures", "BODY-picture-title", "BODY-reference-link", "BODY-section-title", "BODY-table-label", "BODY-table-link", "BODY-tables", and "BODY-table-title". The "Show:" dropdown is set to "Available styles".

- **Após ter sido feita a publicação nesse sistema, os dados somente estarão disponíveis no site da SciELO, após o processamento periódico (semanal).**
- **Durante o processamento também, serão gerados os links com outras bases e a bibliometria.**
- **Na interface da SciELO, a única alteração perceptível será a consulta dos números pre-print.**

Próximos passos...

- **Possibilidade de receber dados de revistas que não usam o SciELO/OJS**
- **Indicadores de produtividade**
- **Sistema está em fase de testes internos e treinamento da equipe SciELO**
- **Tradução do sistema para Português e Espanhol**
- **Liberação do sistema para testes externos com revistas SciELO**

Obrigada!

Solange Santos
